

PANORAMA® STERLING® 20

INTERIOR VIEW

Comparison of performance on 1/4" (6mm) thick clear glass.

PANORAMA® STERLING® 20

Sterling 20 offers optimum privacy, strong heat and glare reduction, with softened natural light. This film is neutrally tinted, with a reflective finish inside and outside.

The Sterling Series offers a high level of visible light transmission and solar energy performance, generally with relatively higher reflectance.

Ultraviolet light blocked @ 300 to 380 nm %	27	>99	34	>99	41	>99	50	>99

1. Performance results are calculated using NFRC methodology and LBNL Window software, and are subject to variations within industry standards and only intended for estimating purposes. This data is provided for informational purposes only and are subject to normal manufacturing variances.
 2. Performance results for glare and fade reduction are calculated by comparing filmed glass to that of untreated glazing.
